

3R Grinding set for toboggan edges

3R Grinding set for toboggan edges

So that your sled stays in the [track](#)

The steerable toboggans glide on the inner edge of the runners. This will be worn and damaged over time. The edge should be sharpened every now and then. The grinding set consists of 90° angle bracket, diamond, file, brush and instructions for use. A Swiss product compiled for 3R by PIEREN TOP PRODUCTS.
